

Iscaguard 9251

Paraben Free	Thiazolinone Free	Formaldehyde Free	Preservative Free	Natural
✓	✓	✓		

INCI declaration
ethylhexylglycerin, chlorphenesin

Iscaguard 9251 is a multifunctional additive, combining a highly effective emollient / skin conditioning agent with a broad spectrum preservative. Iscaguard 9251 is suitable for use in all types of cosmetic products, but is particularly useful in deodorising and sensitive skin applications. The preservative boosting properties of ethylhexylglycerin, along with its outstanding emolliency, allows formulators to create safer, gentler formulations. Iscaguard 9251 may be used as a stand alone preservative, or in combination with other antimicrobial agents.

In Use Concentrations	ISCA recommendation	EU Cosmetic Regulation (max)
Leave-on	1.0 – 3.0 %	6.0 %
Rinse-off	1.0 – 3.0 %	6.0 %

In use concentrations vary according to the formulation type and the other ingredients present. The correct use dosage should be determined by microbial challenge testing of the finished formulation (ISCA UK offers discounted challenge testing to our customers).

Recommended Applications

Shampoo, Shower gel (Rinse-off)	Creams, lotions (Leave-on)	O/W emulsions	W/O emulsions	Wet wipes	Eye care	Lip care	Oral care	Children under 3

Use scenarios derived from evaluation of Cosmetic Regulation guidelines and preservative performance for typical formulations.

Iscaguard 9251

Formulation guidelines	
pH (effective range)	3.0 – 9.0
Solubility (Water)	< 0.5 %
Solubility (Glycols)	Soluble
Maximum Process Temperature	80 °C
General information	Iscaguard 9251 is compatible with most personal care ingredients. In aqueous formulations, heating to 40°C may be required in order to fully dissolve the preservative. It has limited solubility in water, but is freely soluble in alcohols and glycols.

Minimum Inhibitory Concentrations	
Microorganism	MIC (%)
Bacteria (gram-negative)	
Pseudomonas aeruginosa	0.5
Escherichia coli	0.5
Bacteria (gram-positive)	
Staphylococcus aureus	0.7

Minimum Inhibitory Concentrations	
Microorganism	MIC (%)
Yeasts	
Candida albicans	0.5
Moulds	
Aspergillus brasiliensis	0.5
